

Dear friends,

How do you greet the thought of another year? Does it thrill you with a sense of new beginnings or does it bring an uneasy sense of time passing faster than you'd like it to? Hopefully it is the former rather than the latter, but on occasions over the coming months, we'll probably see time as a foe, rather than a friend. When life is good, we want it to stand still so that we can hang onto it forever – only of course we can't, and those special moments soon become distant memories. When life is busy, we want more time, for there simply isn't enough of it to go around. When life is dull, brings yet more of the same routine, time drags and appears to go on forever. I remember my Nana Bessie writing in my autograph book 'time goes slowly for those who have nothing better to do than watch the clock!'

For a whole host of reasons, we can end up yearning for extra time, or wishing it away, and in each case, we fail to appreciate the time we have.

How do we escape from that impasse? Perhaps I can suggest three points to keep in mind. Firstly, no matter what our responsibilities, we can learn to take things at a more leisurely pace, building into each day a few moments to be still in the presence of God. Secondly, we can take things as they come, letting go of worries about the future or regrets concerning the past and remembering that each moment is a gift of God. Thirdly, we must remember that we live in the context not simply of our brief human span, but of God's eternity. In other words, quite literally, we have all the time in the world and more! Yes, we'll occasionally end up chasing our tails, wishing we should stop the clock or wondering why its hands move so slowly, but we'll also learn to appreciate the time God has given and so to appreciate life to the full. When you know that time may be limited – it certainly gives you a different perspective.

**Yesterday was history,
Tomorrow is a mystery,
Today is a gift of God,
That is why it is called the present.**

I would like to finish with an alternative version of Psalm 23 by Toki Miyamisha

The Lord is my pace setter, I need not rush.
He makes me stop and rest for quiet intervals.

He provides me with images of stillness, which restore my serenity.
He leads me in ways of efficiency through calmness of mind.
His guidance is peace.
For his presence is here, his timelessness. his importance will keep me in balance.
He prepares refreshment and renewal in the midst of activity by anointing my head with oils of tranquillity.
My cup of joyous energy overflows.
Such harmony and effectiveness shall be the fruit of my hours,
For I shall walk in the peace of the Lord
And dwell in his company for ever more. Amen

A happy new year to you all. May you use your time wisely and enjoy the present of time and use your time this year wisely.

Every blessing,

Deborah

Veganuary

January is a time for good resolutions, and giving up animal products for the month helps reduce your carbon footprint, as well as giving yourself a chance to recover from the over indulgence of the festive season. This recipe is cheap, nutritious, quick, and very easy to digest. It is my go-to dish for days when I feel a bit under the weather. And, of course, it is delicious.

Mixed Veg Kitchari

Servings: 4 each Calories: 277kcal

Ingredients

- 3/4 cup long grain white basmati rice
- 3/4 cup quick cooking lentils such as red lentils
- 3/4 tsp [cumin seeds](#)
- 2 to 3 cloves
- 1 tsp coriander powder
- 1 tbsp onion flakes
- 1 tsp garlic powder
- 1/4 tsp ground ginger
- 1/2 tsp [garam masala](#), more if you like it spicier
- 3/4 tsp turmeric
- 1/4 tsp cayenne
- 1 or 2 Indian bay leaves

To Cook:

- 1 tomato chopped
- 1 to 2 cups chopped vegetables
- water
- 3/4 tsp salt

Instructions

1. Toast the cumin seeds and cloves on stove top over medium heat until cumin seeds change colour slightly. (This step is optional).
2. Wash the lentils and rice.
3. Put all the spices, the lentils and rice into a pan.
4. Add 5 cups of water instead and the rest of the ingredients as above. Cover partially and cook for 22 minutes, then check to see whether it is done.
5. If you like garnish with coriander, lemon juice and pepper flakes and serve as is or with chutneys, or poppadums.
6. This is the clever bit. If you like the dish, next time mix a jarful of spices for future use, making the recipe extremely quick to make.

Variations (enough to stop it ever getting boring!)

- If you have a pressure cooker use only 3.5 cups of water and cook on low pressure for 3 minutes.
- Add 2 green cardamom pods and a cinnamon stick to the spice bag.
- Use other spice blends like curry powder or Jamaican curry blend or anything else you fancy!
- Use moong dal instead of half or all the red lentils
- Use brown basmati rice and brown/green lentils, black eyed beans or mung beans. You will need to add more water and cook for longer.

Rev Sue

Thank you.

I have so many “thank yous” to say to you to those both at St. George’s and St. Margaret’s

A big thank you to all those who helped with the young at heart party especially to those who helped to set up. Helped with the catering, the clearing up afterwards and the transport. It was such a lovely afternoon and we have had so many positive comments about it.

Thank you to for all money that was raised for the children's society through our Christingle service and to all those who helped with the making of the Christingles.

Thank you for all the donations of warm clothes and chocolate for Barnabus who support the homeless.

Thank you to all those who have made angels. 215 angels were made, which is amazing. These were given to the children, in KS1 at St. Margaret's School, Sunday School, St. Margaret's pre-school and to the children who came to our Christmas services.

Thank you to the flower arrangers for making our church look so beautiful over Christmas.

Thank you to all those involved in our Christmas services either in the worship, singing and behind the scenes ensuring that everything runs smoothly and efficiently.

Rev Deborah

Thank you so much for all your love, support and prayers during my recent health issues.

'Maggies Music Makers' is so much more than singing!

I am writing to tell you about an interesting event I attended a few weeks ago, as part of MICRA (The University of Manchester Institute for Collaborative Research on Ageing). The theme was 'Creative Ways to improve movement and quality of life in age related conditions'.

A fascinating speaker from the University of Derby, Dr Yoon Irons, spoke to us about a recent piece of research she had led which highlighted the many health benefits of singing.

She spoke about the more obvious benefit which is people coming together on a regular basis whether this be weekly or even monthly, thus reducing social isolation and creating a feeling of being valued and belonging to a group. From this people then become more confident and motivated in other areas of their life too.

She also spoke about the impact of singing on our cognitive function as music stimulated and activated pathways to the brain otherwise known as neuro transmitters. When a person is singing the brain has to process lyrics, rhythm, melody and harmony, to name a few. This multitasking actually helps develop and maintain functionality in the body.

Finally there is the physical impact on the body as the act of singing uses many different joints and muscles which if not used will cause problems with bodily functions as well as mobility issues as we get older. Using your body as a musical instrument will often create better posture and increase lung function. This in turn will lead to better health overall.

The research then suggested how 'Singing' therefore should be on Prescription as its health benefits outweigh any medication and without the side effects. I explained how in fact St Margaret's Church in Prestwich was actually providing this service already but perhaps some of us hadn't realised or appreciated just what it actually did!

The Summons (HON 752) John L. Bell & Graham Maule

Fundamentally, there are five basic elements to singing songs (which include hymns) successfully:

- Pitch - how high or low the notes are
- Rhythm - the pattern of the notes
- Pulse - the beat upon which rhythm sits - usually 2, 3 or 4 time
- Tempo - the speed of the pulse
- Words - for communicating meaning

The pitch, pulse, rhythm and words set by the composer, with suggestions of tempo also given, usually in Italian. For choirs and orchestras, the pulse and tempo are communicated to the musicians by the conductor using a specialised type of semaphore:

The faster the conductor makes these beat patterns, the faster the music goes! Furthermore, the bigger the action the louder the music; the smaller the action, the quieter the music. When new songs are being learned, the conductor may also indicate the pitch of the notes by hand – the higher the note, the higher the conductor’s hand. This seems to be popular with new hymns at St Margaret’s!

Rhythm is more difficult to indicate using hand signals, but is terribly important. Essentially, rhythms can be ‘straight’ or ‘swung’ (also known as ‘dotted’). Take “The Summons” for example:

Commented [1]:

Will you come and follow me if I but call your name?
 Will you go where you don't know and never be the same?
 Will you let my love be shown? Will you let my name be known,
 will you let my life be grown in you and you in me?

Will you leave yourself behind if I but call your name?
 Will you care for cruel and kind and never be the same?
 Will you risk the hostile stare should your life attract or scare?
 Will you let me answer prayer in you and you in me?

Will you let the blinded see if I but call your name?
 Will you set the prisoners free and never be the same?
 Will you kiss the leper clean and do such as this unseen,
 and admit to what I mean in you and you in me?

Will you love the "you" you hide if I but call your name?
 Will you quell the fear inside and never be the same?

Will you use the faith you've found to reshape the world around,
through my sight and touch and sound in you and you in me?

Lord your summons echoes true when you but call my name.
Let me turn and follow you and never be the same.
In Your company I'll go where Your love and footsteps show.
Thus I'll move and live and grow in you and you in me.

At St Margarets and St George's we usually sing this in a swung rhythm. For me, this suggests a dance – we are dancing with Jesus in an intimate relationship. There are other parishes that consider this rhythmic version as vulgar, and insist on singing The Summons in a straight rhythm. For me, this suggests that we are running to try and keep up with Jesus.

Have a listen for yourself, and feel the difference made by rhythm!

South Asia Floods Appeal

We have decided to make the Christian Aid South Asia Floods Appeal our overseas charity this Christmas. Here's why.

Every summer the monsoon season brings torrential rain to South Asia, but in 2017 the floods in India, Bangladesh and Nepal were the worst for years. 40 million people were directly affected by the disaster. Before the region had a chance to recover, 2019 brought further severe flooding, with 700 000 in Bangladesh alone forced to abandon their homes.

People are still in need of safe shelter, clean water, food and medical supplies, so Christian Aid is working with their local partners in India, Nepal and Bangladesh to help people whose homes and livelihoods have been lost. They provide safe drinking water, food, tarpaulin for shelters, hygiene materials, mosquito nets, and food for livestock. Without access to safe drinking water. There is a high risk that diseases will spread due to poor sanitation.

2019 has been our year of focusing on the environment, so it is fitting to end it by helping people who are already suffering from extreme weather conditions as a result of climate change. Giving is vital to improving their living conditions, but let's not forget to continue to pray for them and to strengthen our commitment to do all we can to halt the climate catastrophe.
